

Evergreen State P-20W Personally-Identifiable Data Set Sharing Matrix

Five conditions have to be met prior to being considered to receive identifiable data

1. Data needs to be linked with data outside of the data warehouse
2. Work is being done on behalf of an education authority
3. Work falls under the research or audit/evaluation exceptions in FERPA
4. You or your organization is identified below as being able to receive identifiable data
5. Recognition that the identifiable data provided originates in the education data (i.e. if additional identifiers are found in non-education data collections, this cannot be shared)
